MEN HOUSEKEEPERS NEEDED IN POLITICS

Mrs. Leonora M. Lake Declares They Should Take Interest in Public Affairs as in Home.

Speaker Denounces Methods of Office Holders and Urges Election of John H. Uthoff in Eleventh Ward.

All good housewives who educate their daughters to be eventually good housekeeprs should not allow their daughters to good housekeepers. This was the advice of Mrs. Leonora M

MRS. LEONORA M. LAKE Who delivered a campaign speech last night in Carondelet.

Lake in a political address, delivered last night at the Carondelet Methodist Church, Virginia and Blow avenues,

"If men kept house, if they saw that clean and upright officials held sway in the public house, as well as women administer to the needs of home." maintained Mrs. Lake, corruption would no longer have a place in municipal government.

"The masculine good housekeeper," said Mrs. Lake, "is he who takes an active inrest in politics, who wants the best man n office, who watches him when there, who s ready and anxious to cast him out if he prove unworthy."

On this theory she urged the election ohn H. Uthoff, indspendent candilate for the House of Delegates in the Eleventh Ward.

Continuing Mrs. Lake said: "The feminine good housekeeper is she who is as deeply concerned in matters at home, in the comfort of her good man, and n the welfare of her children. More women are good housekeepers than men. There fore, a large sphere exists in which the en/may work and bring the men into

MEN AS HOUSEKEEPERS "I want every woman to be a good house-keeper, but I also want men to do good isekeeping in civic affairs. When the wife has employed a new servant, the good man comes home in the evening and says: Dear, how do you like the new girl." She extolls her virtues, whatever they are; but he pays little heed, though he is very critical of the dinner that evening. That dinner decides him with regard to the new girl.

ical of the dinner that eyening. That dinner decides him with regard to the new
girl.

"Why can't the men be as critical and
apply equally decisive tests to the other
men, whom they choose to do the public
housekeeping? We women have to be very
attentive to our duties to keep the good
man feeting that his house is well kept.
If the zervant is dishoner, we say to her
that she has not served, but betrayed, and
we discharge her. Why do not the men observe the same rule with regard to their
servants in office."

Mrs. Lake denounced the class of men servanis in office?"

Mirs. Lake denounced the class of men that have been doing the public "house-keeping" for the past few years, and extolled the exceptions. The conditions, she declared, were not the fault of a party or parties, but because of falseness to the principles which created the parties.

He adds that the revolutionists are spreading the belief that Russia is alding the movement.

The Russian Consul also confirms the report that a plot to destroy the Turkish military depot at Istib, Macedonia, with dynamite was recently discovered, and mays the railroad and telegraph lines have been cut and that Bulgarian officers are joining the insurgent bands. The inhabitants are compelled by threats

to support the insurgents, supply them with money and provisions and transport arms. The Consul, however, considers that the movement is artificial and not really approved by the bulk of the population, and adds that the revolutionary committees are doing their utmost to incite the Mohammedans to engage in a general annihilation of he Christians with the object of securing the intervention of the great Powers.

It is stated on good authority that after two hours' fighting Turkish troops repulsed an Albanian attack on Mitroitsa. The Albanians lost heavily. They had demanded the removal of the Russian Consul.

KILLED BY SWEENEY

House Defeated Measure When Delegate Sneered at Business Men's League.

MADE A PLEA FOR HOME RULE.

Legislator Who Will Soon Retire Failed to See Any Benefit to to Be Derived From Better Postal Facilities.

Because John P. Sweeney, in the last days of his career as a municipal legislator, last night declared himself in favor of "home rule and municipal ownership," the bill authorizing the installation of a pneumatic tube mail service between Union Station and the Post Office, was killed by the House of Delegates.

It required only five negative votes to kill the measure, and they were cast by Sweeney, kinney, Stannard, Williams and Zachritz.

The members who voted in favor of the bill were: Brennan, Buckley, Denny, Gaz-olo, Hanigan, Karbe, Klute, Koeln, Stanze, Troll, Windmueller and Fontana. Sweeney voted to kill the bill despite the

fact that the House adopted an amendment which he offered and which was supposed to cover his objection to the measure The amendment provides that in the event the pneumatic tube company succeeds in making any money above expenses the city shall have the right to purchase

the plant after 1905, when the Gover

contract for the handling of mail shall have "I've tried my utmost, but I have been unable to find out who is in back of this bill," declared Sweeney, when called upon

to vote. "I am in favor of allowing St. Louis men to derive benefit from St. Louis enterprises. "The Business Men's League has no right to come here and tell the members of the House of Delegates what bills they shall pass and what they shall not pass.

"I believe in home rule, and do not see any benefit to be derived in allowing outsiders to come here and govern St. Louis." This action on the part of the lower branch of the Municipal Assembly may deprive St. Louis of the pneumatic-tube mail service, as it was stated several days ago that there was danger of the Governm revoking its contract in the event that the necessary legislation was delayed.
